

Central Themes/ Ideas

- * Only high quality, parametric models
 - * export stl but fixed first
 - * first to market with AMF if possible
 - * stronger CAD engine than openscad

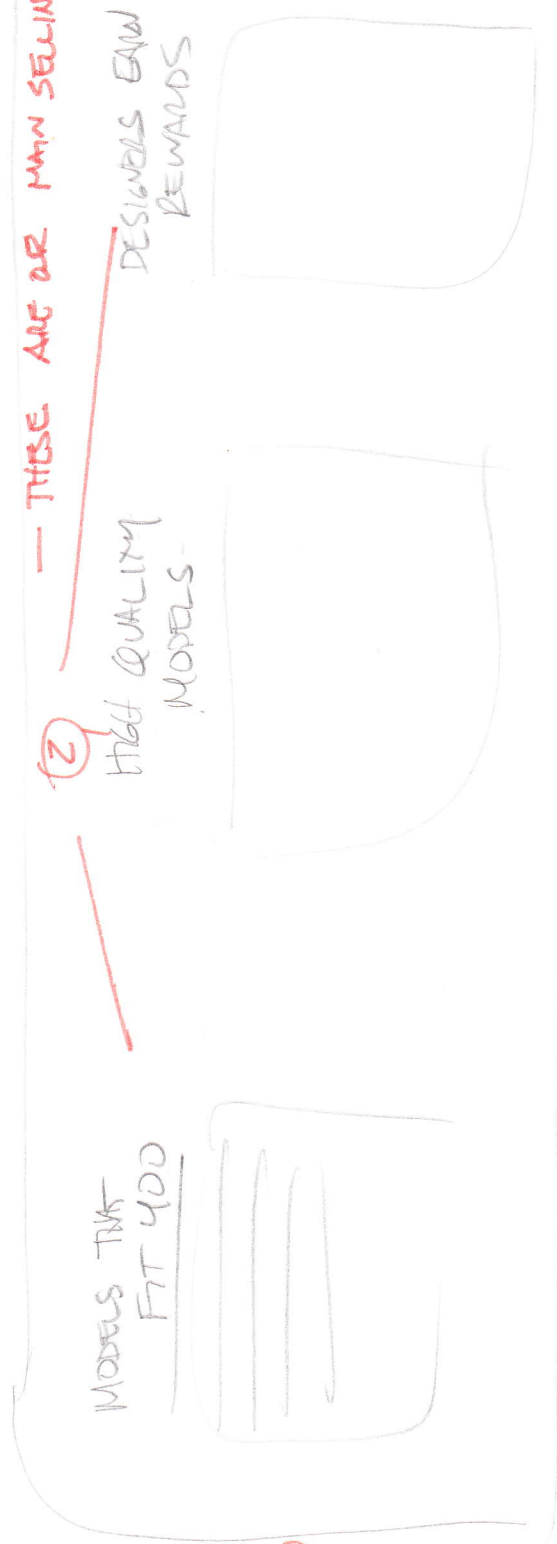

- * User can customize and download
 - * initially parameters
 - * ideally pictorial help

- * Model authors have a reason to contribute
 - > money (but we take 5%)
 - > access to a certain number of downloads for each model uploaded?

- * Print directly from here
 - * shapeways, cubify, redevye, etc
 - * far future: producers can sign up too ?
